FOR IMMEDIATE RELEASE

JUNE 28, 2006

Peripheral Manufacturing, Inc., in Denver, Colorado, announces an Innovative 21st CENTURY PORTABLE AIR CONDITIONER. The PER-12000 is designed specifically for Server and Computer Rooms.

The PER-12000 is Multi-Functional: Air Conditioner\Dehumidifier, Dehumidifier, or Circulating Air. It is a three-speed unit with constant temperature control. Special features include: AUTOMATIC RE-START, insulated compressor and tubing for internal heat reduction, insulated panels for extra quiet operation, and 5 year warranty on the compressor. Most important is a BACK-UP Reserve Pump so excess water will never overflow from primary pump failure onto the computer or server room floor. There are many financial advantages as well.

Peripheral Manufacturing, Inc. is a 28 year old manufacturer and marketer of magnetic media products, Computer and Server room air conditioners from 9000 through 60,000 BTU's, hard drive and magnetic tape Degaussers, and a WATERLESS Aerosol Fire Suppression system for Server and Computer Rooms.
